

# XP/SB

FOR  
CEILING  
& WALL

Designed to fit into any type of wall or ceiling system allowing easy access into the cavity/void where regular maintenance to services is required to be carried out.

## Description

A beaded frame surround is provided, which enables the panel to be inserted directly into a pre-cut hole, and is screw fixed into position through the side of the panel frame.

## Construction

Constructed from 1mm thick Zintec Steel, with a polyester powder coating of matt white Ral 9010, 20% Gloss (other colours available upon request). The fully removable door is fitted with a simple pin hinge and is secured with a slotted chrome lock, which can be operated with a screwdriver.

## Dimensions

The express range is only available up to 600x600mm.

## Fitting

The access panel should be screw fixed into position through the side of the frame, into suitable bracing within the wall/ ceiling system. In certain circumstances the smaller panels (up to 300 x 300mm) may be glue fixed into position using a suitable adhesive.
