Lock Type	 Budget	 Suited	 Tamper	 5mm Bit	Non Rated	Non Rated	Non Rated
	 Touch Catch	 Euro Profile	 3 - Way	 IP 65	 Fire Rating	 Airtight	 Acoustic

Description

A picture frame surround is provided, which enables the panel to be inserted directly into a pre-cut hole, and is screw fixed into position through the side of the panel frame.

Construction

Constructed from 1.2mm and 1mm thick Zintec Steel, with a polyester powder coating of matt white Ral 9010, 20% Gloss (other colours available upon request). The panels are also available in Stainless Steel for use in corrosive areas (quote using product code and ref SS). The removable door trays are fitted with a sliding pin hinge and standard budget lock.

Dimensions

Non-standard sizes can be manufactured to order within maximum and minimum dimensional constraints. For further information please contact our Technical Sales Department. Sizes shown are overall dimension to outside edge of frame: 300 x 300mm, 450 x 450mm, 600 x 600mm.

Fitting

The access panel will require independent bracing and support, which is sufficient to secure and also allow safe opening of the access panel within the ceiling system. For panels greater than 600 x 600mm it is advisable to request the fitting of safety chains.
